NOTE 1 – CONTRIBUTIONS FROM THE WESTERN KENTUCKY UNIVERSITY FOUNDATIONS

The Western Kentucky University Foundation receives gifts and contributions that are restricted for the related athletics programs. The Hilltopper Athletic Foundation (“HAF”) raises funds for the intercollegiate athletics program and transfers them to the University when needed. The Western Kentucky University Foundation holds accounts for the Touchdown Club and Men’s Basketball Athletic Director Fund. All athletics related revenues and expenses from the WKU Foundation, HAF and College Heights Foundation are included in the Schedule of Revenues and Expenses.

NOTE 2 – CAPITAL ASSETS

Assets acquired, depreciated and disposed of for athletic purposes follow the University’s capitalization policy of \$5,000. All capital assets, as defined by University policy, are recorded at cost at the date of acquisition, or, if donated, at fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful life of the asset and is not allocated to functional expense categories. Assets capitalized under leases are amortized over the estimated useful life of the asset, or the lease term, whichever is shorter. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

NOTE 3 – LONG TERM DEBT

For the year ended June 30, 2020, there was outstanding intercollegiate athletics debt associated with a portion of the General Receipts Bonds, Series 2015A and Series 2016A, totaling \$14,481,250. Additionally, there is outstanding intercollegiate athletics debt related to the renovation of Diddle Arena and maintained by the University totaling \$15,340,000.

Future payment requirements for the Diddle Arena outstanding debt as of June 30, 2020 are as follows:

<u>Year ending June 30</u>	<u>Principal</u>	<u>Interest</u>
2021	2,500,000	568,205
2022	2,525,000	480,705

WESTERN KENTUCKY UNIVERSITY
NCAA AUP REVENUE AND EXPENSE PROCEDURES
JUNE 30, 2020
Attachment A

If a specific reporting category is omitted from the schedule or it is less than 4% of the total revenue or expenses, the procedure is not deemed to be applicable for that specific category.

Procedures

Revenue Procedures

1. Before the commencement of fieldwork, determine that the amounts reported on the Schedule agree to the institution's general ledger. Recalculate totals.

Results: No exceptions noted.

2. Compare and agree each operating revenue category reported in the Schedule during the reporting period to supporting schedules provided by the institution.

Results: No exceptions noted.

3. Compare and agree a haphazard sample of operating revenue receipts obtained from the above operating revenue supporting schedules to adequate supporting documentation (such as payment receipts, posting general and daily balancing report).

Results: We performed specific revenue procedures detailed below for all categories that were equal to or greater than 4% of total revenues. No other category exceeded this threshold, therefore, the procedures enumerated above are not applicable.

4. Compare each major revenue account over 10% of the total revenues to prior period amounts and budget estimates. Obtain and document an explanation of any significant variations over 10% from the prior year. Report the analysis as a supplement to the final agreed upon procedures report.

Results: There was one revenue category on the Schedule of Revenues and Expenses that were greater than 10% of total revenues and had a variance greater than 10% from prior year balances.

- Student Fees decreased \$757,335 or 19.1% from the prior year. The student fee balance is based on a percentage of tuition revenue. Per inquiry of management, during FY 20 there was a decrease in tuition revenue which reduced the total amount of fees collected for athletics.

Ticket Sales

5. Compare tickets sold during the reporting period, complimentary tickets provided during the reporting period and unsold tickets to the related revenue reported by the Institution in the Schedule and the related attendance figures and recalculate totals.

WESTERN KENTUCKY UNIVERSITY
 NCAA AUP REVENUE AND EXPENSE PROCEDURES
 JUNE 30, 2020
 Attachment A

If a specific reporting category is omitted from the schedule or it is less than 4% of the total revenue or expenses, the procedure is not deemed to be applicable for that specific category.

Results: We noted the following differences when comparing ticket reports to the Schedule.

	Ticket Sales Revenue		
	Net Sales Per Ticket Report	Schedule Total	Difference Between Ticket Report and Schedule
Football	\$ 1,224,953	\$ 1,226,400	\$ 1,447
Men's Basketball	1,018,827	1,020,122	1,295
Women's Basketball	99,363	101,444	2,081
Baseball	10,725	10,947	222

We inquired of management and were informed these differences are the results of certain reclassifications, transfers, and year-end accrual entries. Therefore, these entries are not reflected in the schedules maintained by the athletic department. Each of these differences are considered immaterial.

Student Fees

6. Compare and agree student fees reported by the institution in the Schedule for the reporting period to the student enrollment report obtained from the Registrar during the same reporting period and recalculate totals.

Results: No exceptions noted.

7. Obtain documentation of institution's methodology for allocating student fees to intercollegiate athletics programs.

Results: No exceptions noted.

8. If the athletics department is reporting that an allocation of student fees should be countable as generated revenue, recalculate their calculation for supporting that they are able to count each sport. Tie the calculation to supporting documents such as seat manifests, ticket sales reports and student fee totals.

Results: No exceptions noted.

Direct State or Other Governmental Support

9. Compare direct state or other governmental support recorded by the institution during the reporting period with state appropriations, institutional authorizations or other corroborative supporting documentation and recalculate totals.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

Direct Institutional Support

10. Compare the direct institutional support recorded by the institution during the reporting period with the institutional supporting budget transfers documentation and other corroborative supporting documentation and recalculate totals.

Results: No exceptions noted.

WESTERN KENTUCKY UNIVERSITY

If a specific reporting category is omitted from the schedule or it is less than 4% of the total revenue or expenses, the procedure is not deemed to be applicable for that specific category.

Transfers Back to Institution

11. Compare the transfers back to institution with permanent transfers back to institution from the athletics department with recalculated totals.

Results: No exceptions noted.

Indirect Institutional Support

12. Compare the indirect institutional support recorded by the institution during the reporting period with expense payments, cost allocation detail and other corroborative supporting documentation and recalculate totals.

Results: We noted an immaterial \$6,337 difference of indirect institutional support between supporting documentation and the schedule of revenue and expense. We inquired with management and were informed this difference relates to an adjustment for the accrual of interest as a result of when the interest was paid and when it was collected.

Guarantees

13. Select a haphazard sample of 5 (or all if fewer than 5) settlement reports for away games during the reporting period and agree each selection to the institution's general ledger and the schedule and recalculate totals.

Results: No exceptions noted.

14. Select a haphazard sample of 5 (or all if fewer than 5) contractual agreements pertaining to revenues derived from guaranteed contests during the reporting period and compare and agree each selection to the institution's general ledger and the schedule and recalculate totals.

Results: No exceptions noted.

Contributions

15. Obtain and agree supporting documentation for any contributions of money, goods or services received directly by an intercollegiate athletics program from any affiliated or outside organization, agency or group of individuals (two or more) not included above (e.g., contributions by corporate sponsors) that constitutes 10% or more of all contributions received for intercollegiate athletics during the reporting period and recalculate totals.

Results: No exceptions noted.

In-Kind

16. Compare the in-kind recorded by the institution during the reporting period with a schedule of in-kind donations and recalculate totals.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

17. Obtain the summary of revenues from affiliated and outside organizations (the "Summary") as of the end of the reporting period from the institution and select a haphazard sample of funds representing at least 20% of the compensation and benefits revenues from the Summary and compare and agree each selection to supporting documentation (such as a report from the third-party), the institution's general ledger, and the Summary and recalculate totals.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

Media Rights

18. Obtain and inspect agreements to understand the institution's total media (broadcast, television, radio) rights received by the institution or through their conference offices as reported in the Schedule.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

19. Compare and agree the media right revenues recorded to a summary Schedule of all media rights identified, if applicable, and the institution's general ledger and recalculate totals. Ledger totals may be different for total conference distributions if media rights are not broken out separately.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

NCAA Distributions

20. Compare the amounts recorded in the revenue and expense reporting to general ledger detail for NCAA distributions and other corroborative supporting documents (i.e., check copy, agreement) and recalculate totals.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

Results: No exceptions noted.

Program Sales, Concessions, Novelty Sales and Parking

23. Compare the amount recorded in the revenue reporting category to a general ledger detail of program sales, concessions, novelty sales and parking as well as any other corroborative supporting documents (i.e., check copy, agreement) and recalculate totals.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

Royalties, Licensing, Advertisements and Sponsorships

24. Obtain and inspect all agreements related to the institution's participation in revenues from royalties, advertisements and sponsorships during the reporting period for the relevant terms and conditions.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

25. Compare and agree the related revenues to the institution's general ledger and the Schedule and recalculate totals.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

Results: We performed specific revenue procedures detailed above for all categories that were equal to or greater than 4% of total revenues. No other category exceeded this threshold, therefore, the procedures enumerated above are not applicable.

Bowl Revenues

31. Obtain and inspect all agreements related to the institution's revenues from post-season bowl participation during the reporting period to gain an understanding of the relevant terms and conditions.

Results: This category was less than 4% of the total revenue. Therefore, the procedures enumerated above were not applicable.

JUNE 30, 2020
Attachment A

If a specific reporting category is omitted from the schedule or it is less than 4% of the total revenue or expenses, the procedure is not deemed to be applicable for that specific category.

Expense Procedures

1. Before the commencement of fieldwork, determine that the amounts reported on the Schedule agree to the institution's general ledger. Recalculate totals.

Results: No exceptions noted.

2. Compare and agree each operating expense category reported in the Schedule during the reporting period to supporting schedules provided by the institution.

Results: No exceptions noted.

3. Compare and agree a haphazard sample of 5 operating expenses (or all if the population is less than 5) obtained from the above operating expense supporting schedules to adequate supporting documentation (such as completed expense reimbursement forms, copies of receipts and invoices).

Results: We performed specific expense procedures detailed below for all categories that were equal to or greater than 4% of total expenses.

4. Compare and agree each major expense account over 10% of the total expenses to prior period amounts and budget estimates. Obtain and document an explanation of any significant variations (significant defined as 10% or more). Report the analysis as a supplement to the final agreed upon procedures report.

Results: There were no expense categories that exceeded 10% of total expenses and fluctuated greater than 10% from the prior year.

Athletic Student Aid

5. Select a haphazard sample of students from the listing of institutional student aid recipients during the reporting period. Sample shall be no less than 10% of the total student athletes for institutions who have used NCAA's Compliance Assistant software to prepare athletic aid detail, with a maximum sample size of 40 and no less than 20% of total student athletes for institutions who have not, with a maximum sample size of 60.

Results: As the University uses the NCAA's Compliance Assistant software, we selected a sample size of 25 out of the 254 students receiving financial aid.

6. Obtain individual student-account detail for each selection and compare total aid in the institution's student system to the student's detail in CA or the institution report that ties directly to the NCAA membership Financial reporting System.

Results: No exceptions noted.

7. Perform a check of each student selected to ensure their information was reported accurately in either the NCAA's Compliance Assistant software or entered directly into the NCAA Membership Financial Reporting System using the following criteria:

Criterion: The equivalency value for each student-athlete in all sports, including head-count sports, needs to be converted to a full-time equivalency value. The full-time equivalency value is calculated using the athletic grant amount reported on the Calculation of Revenue Distribution Equivalencies Report (CRDE) from the NCAA Compliance Assistant (CA) as the numerator and the full grant amount which is the total cost for tuition, fees, course related books, room and board for an academic year as the denominator. If using the NCAA Compliance Assistant software, this equivalency value should already be calculated for you on that squad list labeled "Revenue Distribution Equivalent Award" and recalculate.

JUNE 30, 2020
Attachment A

If a specific reporting category is omitted from the schedule or it is less than 4% of the total revenue or expenses, the procedure is not deemed to be applicable for that specific category.

- a. *Criterion:* Grants-in-aid is calculated by using the revenue distribution equivalencies by sport and in aggregate (Athletic grant amount divided by the full grant amount).

Procedure: For each student selected, recalculate the grants-in-aid and compare to the CRDE report to determine any discrepancies.

Results: No exceptions noted.

- b. *Criterion:* Other expenses related to attendance (also known as cost of attendance) should not be included in grants-in-aid revenue distribution equivalencies. Only tuition, fees, room, board, and course-related books are countable for grants-in-aid revenue distribution per Bylaw 20.02.07. Note: for compliance purposes equivalencies may include other expenses related to attendance per Bylaw 15.02.2, however these expenses are not allowed to be included for revenue distribution equivalencies.

Procedure: For each student selected, observe that only tuition, fees, room, board, and course-related books are included in the grants-in-aid revenue distribution.

Results: No exceptions noted.

- c. *Criterion:* The full grant amount should be the full cost of tuition for an academic year, not semester or quarter.

Procedure: For each student selected, compare the grant amount shown to the cost of tuition as published the institution and determine whether it is for the full year, not a semester or quarter.

Results: No exceptions noted.

- d. *Criterion:* Student-athletes should only be counted once, regardless of multi-sport participation, and should not receive a revenue distribution equivalency greater than 1.00.

Procedure: For each selection, observe that the student-athlete was counted once and did not receive a revenue distribution equivalency greater than 1.00.

Results: No exceptions noted.

- e. *Criterion:* Athletic grants are valid for revenue distribution purposes only in sports in which the NCAA conducts championship competitions, emerging sports for women and bowl subdivision football.

Procedure: Obtain a list of NCAA championship competitions, emerging sports for women, and bowl subdivision football. For the students selected, compare the sports included within the calculations to those on the list and determine if there are any discrepancies.

Results: No exceptions noted.

- f. *Criterion:* Grants-in-aid are valid for revenue distribution purposes in NCAA sports that do not meet the minimum contests and participants requirements of Bylaw 20.9.6.3.

Procedure: For each student selected, compare grants-in-aid included within the calculation to NCAA sports that do not meet the minimum contests and participation requirements of Bylaw 20.9.6.3 and determine if there are any discrepancies.

Results: No exceptions noted.

If a specific reporting category is omitted from the schedule or it is less than 4% of the total revenue or expenses, the procedure is not deemed to be applicable for that specific category.

- g. Criterion:* Institutions providing grants to student-athletes listed on the CRDE as 'Exhausted Eligibility (fifth year)' or 'Medical' receive credit in the grants-in-aid component.

Procedure: If a student selected is included in the grants-in-aid calculation, obtain and observe letter(s) from the institution to the student communicating the status as 'Exhausted Eligibility (fifth year)' or 'Medical', as applicable, and determine that the student is properly flagged in the compliance software (if used).

- h. Criterion:* The athletics aid equivalency cannot exceed maximum equivalency limits. However, the total revenue distribution equivalency can exceed maximum equivalency limits due to exhausted eligibility and medical equivalencies (reference Bylaw 15.5.3.1).

Procedure: If maximum equivalency limits are exceeded, trace the excess over the limit to exhausted eligibility and medical equivalencies

Results: No exceptions noted.

- i. Criterion:* If a sport is discontinued and the grant(s) are still being honored by the institution, the grant(s) are included in student-athlete aid for revenue distribution purposes.

Procedure: For any selections where the sport is discontinued and the institution has included the related grant for the student, observe documentation that the grant is still being honored by the institution.

Results: No exceptions noted.

- j. Criterion:* All equivalency calculations should be rounded to two decimal places.

Procedure: For each student selected, observe that calculations have two decimal points.

Results: No exceptions noted.

- k. Criterion:* If a selected student received a Pell Grant, observe the value of the grant is not included in the calculation of equivalencies or the total dollar amount of student athletic aid expense for the institution.

Procedure: If a selected student received a Pell Grant, observe that the value of the grant is not included in the calculation of equivalencies or the total dollar amount of student athletic aid expense for the institution.

Results: No exceptions noted.

- l. Criterion:* If a selected student received a Pell Grant, observe the student's grant was included in the total number and total dollar value of Pell Grants reported for Revenue Distribution purposes in the NCAA Membership Financial Reporting System.

Attachment A

If a specific reporting category is omitted from the schedule or it is less than 4% of the total revenue or expenses, the procedure is not deemed to be applicable for that specific category.

Additional Minimum Agreed-Upon Procedures

1. For Grants-in-Aid:

- a. Compare and agree the sports sponsored reported in the NCAA Membership Financial Reporting System to the Calculation of Revenue Distribution Equivalencies Report (CRDE) from CA or other report that supports the equivalency calculations from the institution. The NCAA Membership Financial Reporting System populates the sports from the NCAA Sports Sponsorship and Demographics Form as they are reported by the institution. If there is a discrepancy in the sports sponsored between the NCAA Membership Financial Reporting System and the CRDE or other report that supports the equivalency calculations, inquire about the discrepancy and report the reason for the discrepancy in the AUP report.

Results: The total aid reported in the NCAA Compliance Assistant was \$55,911 more than what was reported by the University. Per discussion with management, the main difference is that a few of the fees were not captured in the NCAA Compliance Assistant as compared to the final accrual reports in addition to their being housing and dining credits that were applied for the Spring 2020 term as a result of the COVID-19 outbreak. This was not for all of the student athletes but for only a few. We noted that there were exceptions for nine sports ranging from \$(13,620) to \$51,821, but deem these differences to be immaterial.

- b. Compare current year Grants-in-Aid revenue distribution equivalencies to prior year reported equivalencies per the Membership Financial Report submission. Inquire and document an explanation for any variance greater than +/- 4%.

Results: Crowe noted that eight sports excluding football, women's track, softball, and women's soccer had variances of +/- 4%. Per inquiry of management, fluctuations are due to an increase or decrease of team members for the given year, increase or decrease due to cost of tuition based on a student athlete having in state or out of state tuition, and the issuance of housing and dining credits as a result of the COVID-19 outbreak. Crowe compared the number of athletes and cost of tuition in FY20 to FY19 and noted that these explanations appear reasonable.

2. For Sports Sponsorship:

- a. Obtain the institution's Sports Sponsorship and Demographics Forms Report for the reporting year. Compare that the countable sports reported by the institution on the report meet the minimum requirements set forth in Bylaw 20.9.6.3 for the number of contests and the number of participants in each contest that is counted toward meeting the minimum-contest requirement. Report any exceptions. If the institution requested and/or received a waiver related to minimum contests or minimum participants for a particular sport, observe that the sport was not included on the CRDE report. Compare the countable sports from the Sports Sponsorship and Demographics Forms Report to the sports the institution has reported as countable for revenue distribution purposes within the NCAA Membership Financial Reporting System. Report any exceptions.

Results: No exceptions noted.

- b. Compare current year number of Sports Sponsored to prior year reported total per the Membership Financial Report submission. Inquire and document an explanation for any variance.

Results: No exceptions noted.

3. For Pell Grants:

- a. Agree the total number of Division I student-athletes who, during the academic year, received a Pell Grant award (e.g. Pell Grant recipients on Full Athletic Aid, Pell Grant recipients on Partial Athletic Aid and Pell Grant recipients with no Athletic Aid) and the total dollar amount of these Pell Grants reported in the NCAA Membership Financial Reporting System to a report generated out of the institutions financial aid records of all student-athlete Pell Grants. Note: individual student-aid file testing in step 7 above should tie any selected student athletes who received Pell Grants back to the report of all student athlete Pell Grants to test the completeness and accuracy of the report.

Results: No exceptions noted.

- b. Compare current year Pell Grants total to prior year reported total per the Membership Financial Report submission. Inquire and document an explanation for any variance greater than +/- 20 grants.

Results: No exceptions noted.
